About us
Cancer Care Ontario (CCO) -- an Ontario government agency -- drives quality and continuous improvement in disease prevention and screening, the delivery of care and the patient experience, for cancer, chronic kidney disease and access to care for key health services.

Known for its innovation and results driven approaches, CCO leads multi-year system planning, contracts for services with hospitals and providers, develops and deploys information systems, establishes guidelines and standards and tracks performance targets to ensure system-wide improvements in cancer, chronic kidney disease and access to care.

Our employees are our greatest asset. They bring our vision to life, embody our culture, represent what we stand for and most importantly, are the face of CCO.

We are committed to creating an environment where you are inspired to do your best work, feel valued for the work you do, and have an opportunity to make a difference. To enable a culture that fosters a sense of community where we work together and support each other for a better future, we embody the following People Values:

- We are rooted in integrity
- We are driven by accountability
- We are empowered by our partnerships
- We are unified in our purpose

Our People Values are essentially how we do our work and how we treat each other. As a people-centered organization, we are looking for employees who model our values so that together, we can create the best health systems in the world.

POSITION SUMMARY/RÉSUMÉ DU POSTE:

CCO is seeking expressions of interest for the position of Clinical Lead, Quality and Access, Systemic Treatment Program. This is a unique opportunity to provide strategic leadership to the evolution of the cancer system. This opportunity is open to all qualified candidates.

Interested parties should forward their expression of interest, curriculum vitae and signed copy of the Conflict of Interest Declaration, electronically, to Erin Redwood (erin.redwood@cancercare.on.ca) no later than 5:00 pm on January 16, 2017.
Attached is the document for reference:
Interested parties should access the Conflict of Interest Declaration Form on the CCO Internet at [http://www.cancercare.on.ca/about/vendorinfo/](http://www.cancercare.on.ca/about/vendorinfo/)

Questions about the role may be submitted to erin.redwood@cancercare.on.ca no later than January 6, 2017. A consolidated list of all questions and answers will be available to any party, by request, by January 10, 2016. To receive a copy of the consolidated list of questions and answers, please contact erin.redwood@cancercare.on.ca.

The Clinical Lead, Quality Care and Access, Systemic Treatment will play a significant role in the development and implementation of vision, goals and objectives of the Systemic Treatment Program, to ensure high quality systemic treatment, available as close to home as possible for all Ontarians. The Clinical Lead will develop the blueprint for enabling quality across the regions, and will play a key role in the evaluation of quality initiatives. Other areas of focus will include leadership and oversight in the multi-year, multi-program project on improving toxicity management in Ontario.

**RESPONSIBILITIES:**

- Champion CCO quality and access initiatives and act as a liaison with other relevant programs and committees
- Contribute to the implementation of the goals for the Systemic Treatment Provincial Plan, and strategic planning for the next iteration of the Plan;
- Play a key role in setting and achieving annual priorities for the Regional Systemic programs which reflects the strategic vision of the program;
- Provide clinical leadership of implementation of quality initiatives which promote a culture of safety in systemic treatment and support evidence-based practice;
- Collaborate and participate in knowledge transfer activities with various internal and external stakeholders to address opportunities and challenges for defining optimal systemic therapy utilization and implementing wait times reduction strategies;
- Establish and maintain effective links with stakeholders, clinicians and other professionals at the provincial and regional levels to advance equitable access to safe systemic treatment services in Ontario;
- Act as spokesperson for quality initiatives as appropriate;
- Prepare reports and presentations for internal and external stakeholders as appropriate;
- Advise on program evaluation approaches and initiatives;
- Promote a person-centred approach, and ensure the work is undertaken in accordance with CCO’s guiding principles of transparency, equity, evidence-base, performance-orientation, active engagement and sustainability.

**QUALIFICATIONS:**

- Medical oncologist practicing in Ontario, respected by peers, with at least 8 years of clinical experience;
- Demonstrated clinical leadership at the hospital/regional level;
- Demonstrated commitment to providing evidence-based patient focused care, the multidisciplinary care model and public accountability;
- Thorough understanding of clinical, administrative and system issues with respect to cancer services;
- Familiarity and comfort with interpretation of administrative data;
- Evaluation skills
- Excellent interpersonal skills and ability to build consensus;
- Enthusiasm for, and commitment to, quality improvement in cancer care at the system level;
- Experience in promoting change and process improvement initiatives involving multiple stakeholders;
• Excellent organization, communication (including public speaking) and interpersonal skills.

More About Cancer Care Ontario:

An agency of the Ministry of Health and Long-Term Care, CCO is the Ontario government’s principal advisor on cancer and chronic kidney disease care, as well as access to care for key health services. It is guided by a mission that together we will improve the performance of our health systems in Ontario by driving quality, accountability, innovation and value. CCO houses both Cancer Care Ontario and the Ontario Renal Network, which leverage CCO’s infrastructure, assets and models to improve the province’s health systems for cancer and chronic kidney disease. It also directs and oversees healthcare funds for hospitals and other cancer and chronic kidney disease care providers, enabling them to deliver high-quality, timely services and improved access to care.
